Profile

I've worked for fifteen years in digital media across Europe.

My prime responsibility at Grand Union and CMW Interactive was providing technical expertise at the pitching and scoping stages and delivering solutions on time and to budget.

I am an adept problem solver and good at developing strategic visions. Understanding ASOS and DraftFCB's business ambition, for instance, was key to deploying an appropriate production environment. I have sound management skills working well with my team and with clients and I remain a competent hands-on programmer when the need arises.

Skills

Technical architecture, hands-on development, technical specification and requirements drafting, team leading.

Front end development

Javascript / AJAX (libraries such as jQuery, MooTools, Prototype, Dojo)
Standard compliant, accessible, CSS (X)HTML, including HTML5 and canvas
Flash Actionscript (AS2, AS3, remoting)
HTML / Flash development for set top boxes

Backend development

PHP (frameworks such as Symfony, CodeIgniter), also Wordpress, Drupal
SQL (MySQL and MS-SQL), scalable clustered database design
Server setup and administration (Unix and Windows)
Some .NET, some Java

Other

Technical SEO, Photoshop, Illustrator, Unit Testing,
Version Control (Subversion, Visual Source Safe) Visio, MS Project, Applescript,
Bug Tracking (Trac, Bugzilla, Mantis, Redmine),

Education

B.Eng. in Electronic Engineering with Computer Science,
University College London, 1994.

Outside Work

I practice martial arts and like to keep fit. I have learned to cope with the pressure of deadlines in my previous career as a chef. I am also a comic book fan and love reading about history.

I grew up in Italy and I studied classical and electronic music in Milan before moving to the UK to complete my studies.

Recent employment – Fritz Stelluto
